## **OCEAN GATE SCHOOL RECEIVES OCEAN FIRST LIBRARY GRANT**

• OCEAN GATE, NJ, SEPTEMBER 18, 2008: We are very excited for the students here at the Ocean Gate School because they will greatly benefit from the \$10,000 in funding that the Ocean First grant will provide. Finally we will have new resources that highlight the numerous social, scientific, technological and historical changes that have taken place in the world. Furthermore, the Ocean Gate "Readers are Leaders" program is a great incentive for students to read more often as the older children will be reading role models for younger readers. The grant will also provide for a technology based library catalog management system that has long been needed. We are thankful to the teachers and volunteers who worked hard on this grant and especially grateful to have been selected by the Ocean First Foundation who provides so much to New Jersey education.
